SUMMARY

As a dynamic web developer with years of experience, I've crafted cutting-edge digital experiences that captivate users! As a seasoned web developer, I don't just code; I thrive in customer interactions too! My exceptional negotiation skills and empathetic understanding of clients' needs have forged strong partnerships and delivered projects that exceed expectations. From pixel to profit, I'm not just go-to web guru, but also an ultimate ally in creating the perfect digital solution! Able to effectively self-manage during independent projects, as well as collaborate as part of a productive team.

EXPERIENCE

Web Developer - Full-Stack

Applied Physics USA

11/2023 - Present Alamosa, USA

As a full stack developer, I've spearheaded the creation of robust web applications using PHP, MySQL, and the Symfony framework, including work on OSSN. Adhering to MVC architecture, I ensure scalability and maintainability. Seamlessly integrating quality assurance tasks, I collaborate closely with app developers to debug and troubleshoot issues. Handling frontend and backend tasks, I craft responsive user interfaces with HTML, CSS, and JavaScript. Staying updated on evolving technologies, I optimize application speed and efficiency. From development to deployment and maintenance, I prioritize quality throughout the software development lifecycle.

Project Coordinator

Freelance

06/2022 - 11/2022 Islamabad, PAK

Acted as a bridge between client and software engineers. Responsibilities were to translate the business need into technical requirement using SE design documents. Made documentation of product features and training of client resources. Led the team to manage workflows within time. Worked with vendors to obtain resources and services needed to complete projects.

SE and Tools

MS Office, MS Visio, MS Project, UML, Gantt Chart, Storyboarding, Wireframe, Mockups, Adobe, Trello, Notion,

Web Developer - Full Stack

Freelance

04/2021 - Present Islamabad, PAK

My position as a web developer specializing in PHP and MySQL has been defined over the last two years by a tireless pursuit of client happiness. Optimized web page loading times, improving user experience and engagement. By actively interacting with customers, I am able to gain a thorough grasp of their needs and create tailored solutions that surpass their expectations. This customer-centric approach has resulted not only in high-quality web apps, but also in satisfied clients who have voiced their appreciation for my work.

Programming Languages & Frameworks

Proficient in multiple programming languages with an advanced command of HTML, CSS, Bootstrap, JavaScript, Core PHP, MySQL complemented by a foundational understanding of React, C++, C#, Laravel, XML, Java & more.

SKILLS

HTML	CSS	Bootstrap	Javascript
Tailwind	React js	Next js	Core PHP
Laravel	Symfony	MySQL	AI
